Summary

Recent Bachelor of Information Technology graduate from James Cook University focusing on computer science and web development. Passionate about web design and development. I am currently trying to find a job as a web developer/front-end developer. I have great teamwork and communications skills as I have worked in retail and hospitality for more than 4 years whilst keeping up with university demands.

Career history

Tech Team Internship at Farmer Meets Foodie
November 2021 – December 2021

Work with tech team to improve UI of the main website and WIX site.

Key responsibilities

- Develop multiple landing pages on the company's WIX website
- Refine existing website to improve UX

Achievements

- Improved communication and teamwork skills
- Gained back-end experience with the multivendor platform 'IXXO'
- Improved web development/design skills using WIX

Barista at Muddy's Café Cairns
August 2019 – Current

Made hundreds of hot and cold beverages every day, in a very busy environment. Worked with the team to ensure a smooth and efficient work pace.

Key responsibilities

- Make delicious coffees and smoothies
- Serve customers

Achievements

- Excellent customer service skills
- Understanding the importance of teamwork

Retail Sales Assistant at Universal Store Cairns

April 2020 – June 2022

Delivered high levels of customer satisfaction through excellent sales service and communication. Worked with team to maintain outstanding store conditions and increase sales.

Key responsibilities

- Recommend and display products that match customer needs

- Manage end-of-day cash count

- Process cash deposits for store

- Process and package online orders using Universal's web app

Achievements

- Excellent customer service skills

- Outstanding maintenance and visual merchandising skills

- Excellent communication skills

Interests

- Coding: Continuing to code in my free time helps me improve existing skills and optimisation of code.

- Exercising / Playing golf: I enjoy playing golf and going to the gym when I have free time

Projects

- **React Weather App** made with React and a public weather API
